OBJECTIVE:

*It is my intention to bring the very best to your racing enterprise. I have been racing for twenty two years and have amassed over one hundred feature event wins including seven championships. I am an outstanding racer with a professional demeanor. I have the years of racing experience that can make us, as a team, a success. My knowledge is not limited to my outstanding performance on the track. Beside my own, I have fabricated and designed several of the cars I have driven for others. I am a social person that enjoys public speaking and can communicate and get along with most anybody. I have committed my life to racing and will be the best racer that has ever sat behind the wheel of your racecar. Welcome me into your racing organization and the success will be endless.
I am not a driver; I am a racer.*
